

24 FRAME FUTURE FILM FEST

where **animation** meets **innovation**

THE FESTIVAL

The 24Frame Future Film Fest is the first and most significant Italian event focused on animated cinema, media arts, visual effects, virtual and augmented reality, gaming, and artificial intelligence.

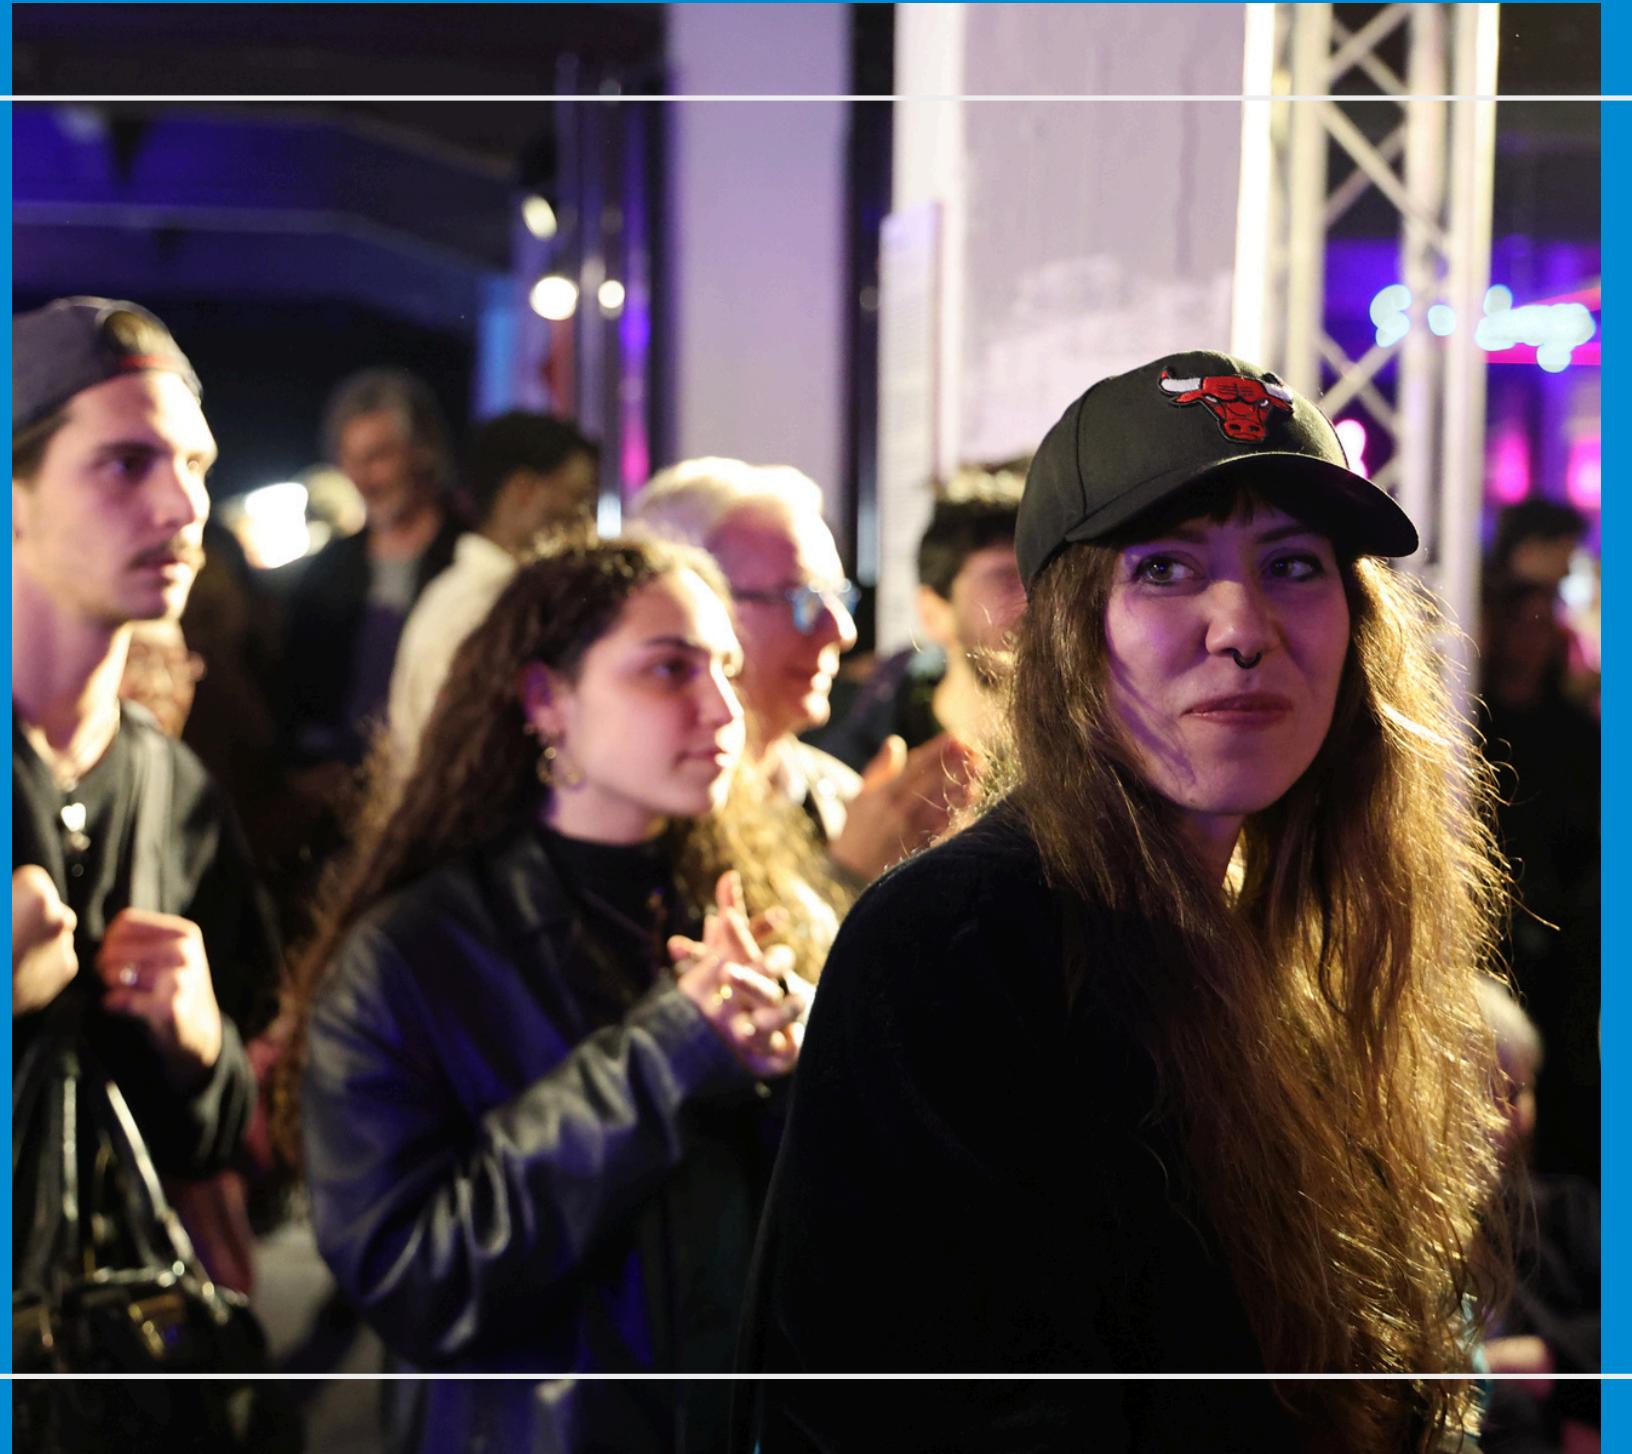

Following the pandemic, the festival has revitalized, largely due to the support and investment from Rete Doc, reestablishing itself as a key player in the Italian industry landscape. It stands out as one of the few organizations that unites technology, cinema, audiovisual media, gaming, artificial intelligence, and interactive experiences.

THE COMMUNITY

24FFF draws a diverse audience of cinema lovers, visual communication experts, new media enthusiasts, special effects fans, series watchers, gamers, and technology experts. Individuals of all ages, including both professionals and students, are keen to delve into this realm or enhance their skills.

A photograph of a crowded event, likely a film festival, with many people in the background. In the center, a woman with short brown hair, wearing a grey cable-knit beanie and a dark grey coat, is smiling and looking towards the camera. She is surrounded by other attendees. The lighting is warm and somewhat dim, typical of an indoor event.

A FESTIVAL ALL YEAR LONG

24FRAME Future Film Fest presents a variety of previews and events connected to the realm of animation year-round in Bologna, Italy.

Since 2021, the Festival has also taken place in Modena, featuring film previews, meetings, and workshops.

For children and their families, the Future Film Kids - Cinema at Child's Height section has been active since 2005: a collection of films and workshops that occurs every Sunday from October to April.

AN OPEN PLATFORM

LET'S COLLABORATE!

The Festival serves as a center for the development and showcasing of projects that unite professionals and enthusiasts both in Italy and internationally. It is increasingly becoming a collaborative platform that operates throughout the year, fostering diverse partnerships, content creation, new products reveal, training programs, and previews.

- Expo and Networking Area
- Videogame Hackathons
- Previews
- Nomikai - Professional Bar
- Pitching
- Demonstration area and practical experiences
- School programs

where **animation** meets **innovation**

A woman and a child are watching a colorful 3D projection of a cartoon character on a wall. The projection features a character with a large head, a blue body, and a red and blue patterned skirt. The background is a dark purple with various cartoonish elements like a key, a castle, and a dragon. The woman is wearing a brown sweater and has her hair in a bun. The child is wearing a brown jacket.

A photograph of a woman with curly hair and glasses, wearing a dark coat, speaking into a microphone on a stage. She is gesturing with her right hand. In front of her is a long table with laptops and a small screen. The audience is seated in rows, facing her. The stage is lit with blue and purple lights. A vertical sign on the right side of the stage reads "24 FRAME FUTURE FILM FEST" and "hop".
